Dear <FIRST NAME> ,

Your experience in hospital is very important to us

I am writing to ask you to take part in the NSW Patient Survey by telling us about your recent admission to [HOSPITAL NAME] during [MONTH]. **Your experience in this hospital is important as it helps us to understand the quality of care you received and allows hospitals to see where they need to improve.**

The survey is easiest to complete online. Please visit the web address below (or scan the QR code) and log in with the following username and password. It is possible to partially complete the survey online and then return to it later to complete the remainder.

Web address: survey.ipsos.com.au/patientsurvey

Username: [INS_UNAME]

Password: [INS_PWORD]

If you prefer to complete the attached paper survey, please use the included reply-paid envelope to mail it back to us.

Taking part in the survey is voluntary. You have been randomly selected to participate and there are many safeguards in place to protect your identity. The hospital staff who cared for you will not know if you have returned a completed survey and will not be able to see your responses to the survey. At no point will we report any information that identifies you as an individual.

The Bureau of Health Information (BHI) runs the survey along with Ipsos Social Research Institute, who is sending you this survey on BHI's behalf. BHI was established by the NSW Government to independently report on the performance of the public health system in NSW, including the healthcare experiences of patients. Results for the NSW Patient Survey are reported in *Healthcare Observer*, found on our website www.bhi.nsw.gov.au

If you have any queries regarding the survey, please contact the toll-free Patient Survey Helpline on 1800 220 936 (Monday to Friday, 4pm–8pm).

Thank you for taking part in the survey.

Yours sincerely

Jean-Frédéric Lévesque
Chief Executive
Bureau of Health Information

How to complete the survey

This survey is about your recent experience as a patient admitted to the hospital named on the previous page. If you have been an admitted patient more than once during the month specified on the previous page, please answer about your most recent experience.

For each question, please use a blue or black pen to mark the box next to the answer you choose, as shown below.

Example only

How clean were the wards or rooms you stayed in while in hospital?

- Very clean
 Fairly clean
 Not very clean
 Not at all clean

Sometimes you will find the box you have marked has an instruction to go to another question. By following the instructions carefully you will be able to move past questions that do not apply to you.

If you would prefer not to answer individual questions, leave them blank but please complete the rest of the survey.

If you make a mistake or wish to change a response, simply fill in that box and mark the correct box like this:

If someone is helping you to complete this survey, please ensure the answers given are from your point of view, and not the opinion of the person helping you.

If you prefer a language other than English, please refer to the separate language sheet for information on the Healthcare Interpreter Service.

Please do not write your name or address on the survey.

When you have finished

- ➔ Remove the covering letter by tearing along the perforated line.
- ➔ Place the completed survey in the "Reply Paid" envelope and post it. You do not have to use a stamp.
- ➔ If you have misplaced the "Reply Paid" envelope, please use a plain envelope (no stamp is necessary) and address to:

**NSW Patient Survey Program

Some questions and answers

Why are you carrying out the survey?

The NSW Patient Survey gathers information about your experience of health services. By completing the survey, you are helping to improve health services in NSW.

Why have I been sent a survey?

You have been sent a survey because you were recently admitted to a NSW public hospital.

Under NSW Health policy, 16 and 17 year old patients are considered old enough to provide consent for their own hospital treatment. Because of this, patients of this age are asked to complete the survey themselves (as opposed to having a parent or carer completing it on their behalf).

What happens to my survey responses?

Your survey responses will be de-identified and then processed with responses from other people who completed the survey to form a report. These reports will then be provided to NSW Health and local hospitals to help them to improve health services.

Your responses will be treated in the strictest confidence and no identifying information will be given to NSW Health, the hospital or health service you attended, your doctor or other health provider unless required by law. Your responses will not affect any future health services that may be provided to you.

How is my privacy protected?

Your privacy is protected by legislation. Ipsos has been provided with your name and address by NSW Health for the purpose of sending you this survey only, and will keep your contact details confidential.

After all surveys are processed, identifying information will be destroyed and Ipsos will then no longer be able to identify the responses you provided. However, for the period that identifiable details remain, you will be able to contact Ipsos through the toll-free Patient Survey Helpline to ask to see your responses, or to request that some or all of your information be deleted.

You can get more information about privacy and confidentiality by calling the toll-free Patient Survey Helpline or at the following website:

www.bhi.nsw.gov.au/nsw_patient_survey_program/privacy

How do I make a formal complaint about my experience in hospital?

Please contact the hospital directly.

Alternatively, you can get more information about your options at the following website:
